INTERNATIONAL ISLAMIC BANKING & FINANCE LAW 2015

4 & 5 FEBRUARY 2015

ROYALE CHULAN HOTEL, KUALA LUMPUR

Islamic finance is now global - fuelled by the booming industries of the Middle East and South-East Asia. Forecasts estimate revenue from Islamic Finance will double over the next five years to more than US\$3.4 trillion, with Malaysia expected to lead the way.

The outstanding growth of the Islamic Finance industry in Malaysia and internationally has attracted leading industry players to Malaysia's shores. Drawing upon the increasingly complex needs of the industry, the Malaysian Current Law Journal and the Bar Council Malaysia present the "International Islamic Banking and Finance Law (IIBFL) 2015". The conference, which will take place on 4 and 5 February 2015, will work to create a strong knowledge base for the different industry players, with focus on regulatory requirements and its implications, current industry challenges in shaping a comprehensive and internationally competitive Islamic finance ecosystem, and the mechanics that are required to sustain the dynamics of the environment in the region.

This conference will showcase the firsthand experience from market regulators, Shariah scholars, and leading industry practitioners, bringing together speakers, panellists and participants with diverse backgrounds and professional expertise, and will particularly benefit individuals from the legal, advisory, banking, fund management and related industry services. This discourse platform will aid stakeholders to understand and appreciate industry demands, and bring to the fore ideas for the future direction of the industry.

This learning conference will deliberate on:

- Current legal and regulatory framework for Islamic Banking and Finance in Malaysia
- Products and services in Islamic Banking and Finance
- The roles and powers of the Islamic Banking regulatory authorities in Malaysia
- Responsible and sustainable banking in Malaysia
- Mergers and acquisitions in Islamic Finance
- Islamic wealth management and succession planning
